

2024 Top Architects

We are pleased to introduce our guide to the esteemed professionals creating iconic designs throughout Colorado, many featured in the pages of CH&L. The list was compiled from recommendations from photographers, interior designers, architects, homeowners and our staff. Businesses that have been featured in CH&L but are based outside the state appear at the end of the list. For firms that have multiple locations, we feature the address of their main office. Firms that have been featured in CH&L from March 2022 to present receive a special designation.

» This rural Carbondale home was designed by Ken Adler, KA Designworks, with a glass aperture that frames panoramic views. The home is flooded with natural light from expansive glass and clerestory windows.

» Architect Brian Ojala, Entasis Group, created a modern home in Hilltop with an entrance that transports guests from public to private space. Staggered concrete steps lead to a gated courtyard, and a glass front door provides guests with a peek into the light filled foyer.

✧ Gerber Berend Design Build orchestrated a traditional farmhouse feel in this Steamboat home. Historic gable forms are mixed with contemporary detailing. An upper-level deck and spacious patios were designed for maximum outdoor living.
